# Environmental Protection

## MISSION STATEMENT

The mission of the Department of Environmental Protection (DEP) is to improve the quality of life in our community through conservation, protection, and restoration of natural resources guided by the principles of science, sustainability, and stewardship; and to provide solid waste management services, including reducing, reusing, and recycling waste in an environmentally progressive and economically sound manner.

## BUDGET OVERVIEW

The total approved FY16 Operating Budget for the Department of Environmental Protection is \$25,474,687, an increase of \$3,102,830 or 13.9 percent from the FY15 Approved Budget of \$22,371,857. Personnel Costs comprise 39.4 percent of the budget for 93 full-time positions and two part-time positions, and a total of 101.78 FTEs. Total FTEs may include seasonal or temporary positions and may also reflect workforce charged to or from other departments or funds. Operating Expenses account for the remaining 60.6 percent of the FY16 budget.

The debt service for the Water Quality Protection Fund is appropriated in the Debt Service Fund and is, therefore, not displayed in this section. To pay for the debt service, a transfer of funds from the Water Quality Protection Fund to the Debt Service Fund of \$3,020,250 for Water Quality Protection bonds is required.

## LINKAGE TO COUNTY RESULT AREAS

While this program area supports all eight of the County Result Areas, the following are emphasized:

- ❖ ***A Responsive, Accountable County Government***
- ❖ ***Healthy and Sustainable Neighborhoods***

## DEPARTMENT PERFORMANCE MEASURES

Performance measures for this department are included below, with multi-program measures displayed at the front of this section and program-specific measures shown with the relevant program. The FY15 estimates reflect funding based on the FY15 approved budget. The FY16 and FY17 figures are performance targets based on the FY16 approved budget and funding for comparable service levels in FY17.

## ACCOMPLISHMENTS AND INITIATIVES

- ❖ ***DEP continues progress towards meeting the 2010 MS4 permit goals, and will work with the Maryland Department of Environment (MDE) to develop goals for the County's next MS4 permit.***
- ❖ ***Additional staffing and contractual support is funded in the DEP and M-NCPPC budget to address the increased demand for Stormwater Management facility inspection, maintenance, and related program oversight.***
- ❖ ***Initiated design on 23 stormwater management pond retrofits, five stream restoration projects, two green street neighborhoods and nine low impact development projects located on County and school properties.***
- ❖ ***Restored over 7,803 linear feet of degraded stream channels and eroding streambanks in the Anacostia Watershed.***
- ❖ ***Constructed 37 Low-Impact Development (LID) practices along Dennis Avenue, treating a combined impervious surface of 19.4 acres.***
- ❖ ***Inspected over 1,100 stormwater management facilities to ensure the facilities are functioning properly.***
- ❖ ***Handled over 1,400 environmental complaints and requests related to air, water quality, illegal dumping, and noise.***
- ❖ ***Established forest cover on approximately 45 acres at the closed Oaks Landfill to provide 17 acres of credit towards meeting the MS4 permit requirements.***

- ❖ **Developed a Continuous Improvement Program template that will allow Certified Green Businesses to set sustainability goals and measure their progress.**
- ❖ **Reviewed and commented on 128 requests for variances from the Forest Conservation Law for disturbance and removals of regulated trees.**
- ❖ **Continued to expand watershed outreach to the County's diverse community, in particular native Spanish speakers. Hosted or participated in 103 outreach events, an increase of approximately 25% from the previous year. Watershed staff or volunteers interacted with approximately 12,500 people at these outreach events.**
- ❖ **Joined both Prince George's County and WSSC in developing a report on the needs for sewers and sewer finance issues in unserved and underserved communities.**
- ❖ **Developed sewer service policy recommendations for the Glen Hills area.**
- ❖ **Completed report on five years of litter monitoring in the Anacostia with results showing a decrease in all categories of litter except food packaging at 14 stream stations being monitored.**
- ❖ **Successfully transferred maintenance responsibility to three private property managers who participated in the pilot pet waste management station project in the Rock Creek watershed. From these seven stations, over 1,800 pounds of pet waste was collected.**
- ❖ **Productivity Improvements**
  - **Developed mobile application to support illicit discharge detection investigations allowing field staff to quickly and accurately input investigation data via smart phone, eliminating use of paper forms.**
  - **Developed an inspection database and iPad app for use by underground stormwater inspectors to more efficiently complete the annual underground pre-maintenance inspections.**
  - **Converted paper inspection and site assessment forms to tablet based forms which allowed for more rapid documentation completion and better customer service.**
  - **Increased use of ArcGIS tablet application to provide for quicker and more accurate mapping during environmental complaint investigations.**
  - **Incorporated Noise Complaint forms and Temporary Noise Waivers into case management system, which eliminated manual data input and enabled automatic creation of waiver certificates.**
  - **Developed a web-based app for RainScapes neighborhood level screening for retrofit opportunities on private property front yards.**
  - **Modified the DEP routes for streetsweeping to focus efforts within the Anacostia, making significant progress on pollutant reductions to meet Total Maximum Daily Loads (TMDL) for that watershed while keeping the same amount of impervious acre restoration credits.**

## **PROGRAM CONTACTS**

Contact Michelle Hwang of the Department of Environmental Protection at 240.777.7724 or Elyse Greenwald of the Office of Management and Budget at 240.777.2768 for more information regarding this department's operating budget.

## **PROGRAM DESCRIPTIONS**

### **Watershed Management**

This program supports watershed-based monitoring, planning, policy development, and project implementation activities designed to achieve County stream protection goals (Chapter 19, Article IV) and comply with the federal Clean Water Act NPDES Municipal Separate Storm Sewer System (MS-4) permit. In combination with the stormwater management projects in the Capital Improvements Program, this program's goal is to provide stormwater treatment for 3,976 acres of impervious area by 2015. Program staff conduct baseline stream monitoring, storm drain discharge monitoring, and public outreach activities that increase awareness and promote citizen involvement in stream stewardship. The program also assesses land development impacts on water resources and the effectiveness of best management practices that mitigate those impacts within the County's four designated "Special Protection Areas" (Chapter 19, Article IV).

Program staff manage, inspect, and ensures the operational effectiveness of over 9,000 stormwater management facilities which receive stormwater runoff discharge and are designed to protect County streams. The Department is also responsible for the structural maintenance of over 3,700 of these facilities.

Revenue for this program is generated by the Water Quality Protection Charge, applied to all residential and non-residential properties except for those owned by the State and County government, and in the cities of Gaithersburg, Rockville, and Takoma Park.

## Environmental Policy and Compliance

This program develops and implements scientifically-based, integrated programs which protect and enhance the County's environmental resources and promotes sustainable practices by the County government, businesses, and residents. The division develops, analyzes, and enforces policies, programs, and regulations related to air quality (ambient and indoor), water quality and stormwater management, energy conservation, forest and tree resources, noise control, pollution prevention, and sustainability efforts. The division is also responsible for environmental monitoring of the County's solid waste facilities; coordination of responses on all legislative referrals at the local, state, and federal levels; and participation on local and regional task forces, committees, and various advisory groups.

## Administration

The Office of the Director provides leadership on policy development, implementation, and administration for all departmental programs and management services. The Director's Office is also responsible for planning, development, and administration of water supply and wastewater policies for the County, development of the State-required Montgomery County Comprehensive Water Supply and Sewerage System Plan. The technical experts in this program work to ensure that the County's management of water and wastewater protects public health and the environment. Additional activities in the Director's Office include budget development and administration; contract management; human resources management; management of the Water Quality Protection Charge including geographical information systems and information technology services.
